

## Specifications

Type test		Clean-room
Fluid Admitted	Air, Water (Conditional)	Air
Remarks	For water: Surge pressure must be lower than max service pressure and use of insert ring	Class 10000 or Class 1000 for down stream use
Service Pressure Range at 20°C	0~150 psi (0~1MPa)	0~150 psi (0~1MPa)
Service Temperature Range	32~140°F (0~60°C)	32~140°F (0~60°C)
Working Vacuum	-29.5in.Hg (-100kPa)	-29.5in.Hg (-100kPa)
