## O2D2 Mounting Example

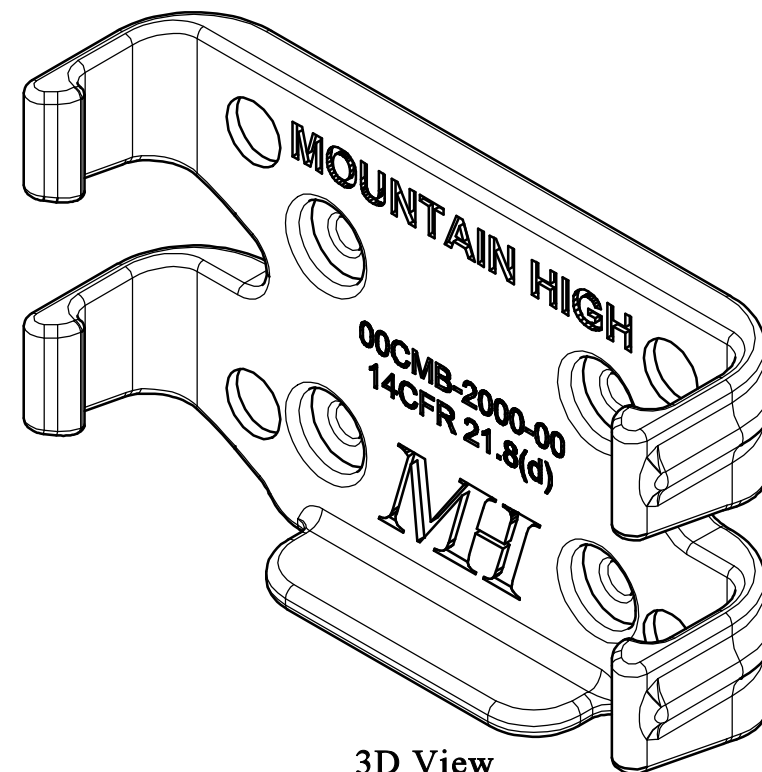

FRONT

REAR

**TOP**

### 3D View

### Notes:

Views are 1:1 (Actual Size). The front or rear view may be cut out and used as a mounting template.

The Ø0.400 counterbores shown in the front view are designed to be used with optional Ø3/8" self-adhesive felt or rubber pads for a more permanent (service removeable) mounting solution.

| MATERIAL    | FINISH | ADDITIONAL TREATMENT |
|-------------|--------|----------------------|
| Nylon, Grey | None   | CLEAN PER ESR-008    |

|                                                                                                                    |                                                                                                                                                                                                                                                                                                            |                      |        |                      |
