**00REG-1054-00 (EOS)**
CGA540 USA Norm (6mm Outlet)
XCR Radial Outlet Oxygen Pressure Regulator
Outlet Pressure Set to 15 psig. (~1.0 BAR)
Inlet Pressure 3,000 psig service MAX.

**DO NOT ATTEMPT TO REMOVE REGULATOR FROM CYLINDER WHILE UNDER PRESSURE!**

The regulator grip-ring will be difficult to turn while under pressure, doing so will destroy the regulator input o-ring. Bleed pressure by turning off the main cylinder valve then remove tubing from regulator.

**Spare O-Ring**
P/N 09001-0011-90
